

Your village needs ..... you?

Do you have, or do you know someone who has **skills in environmental auditing**? The Roxwell church project, in order to have a successful outcome and attract substantial grant funding has to be sure it demonstrates environmental sustainability. This affects obvious things like heating and lighting systems, but also water usage, insulation, materials used etc. While we have sought to make decisions taking into account environmental costs, we lack the expertise to undertake a thorough environmental audit. We are optimistic there is someone out there in the local community who does have the expertise we are looking for and can help us in taking the church repairs and development forward. Please reply to this email or phone Richard Woolley on 01245248365, any information really appreciated.

With kind regards

*D. Ralph Metson*
